

GrowthPilot

Bridging intergenerational
knowledge gaps with interactive AI

Pelin Bilir, Samin Eghbali, Sophie König, Maximilian Langer

THE DIVIDE

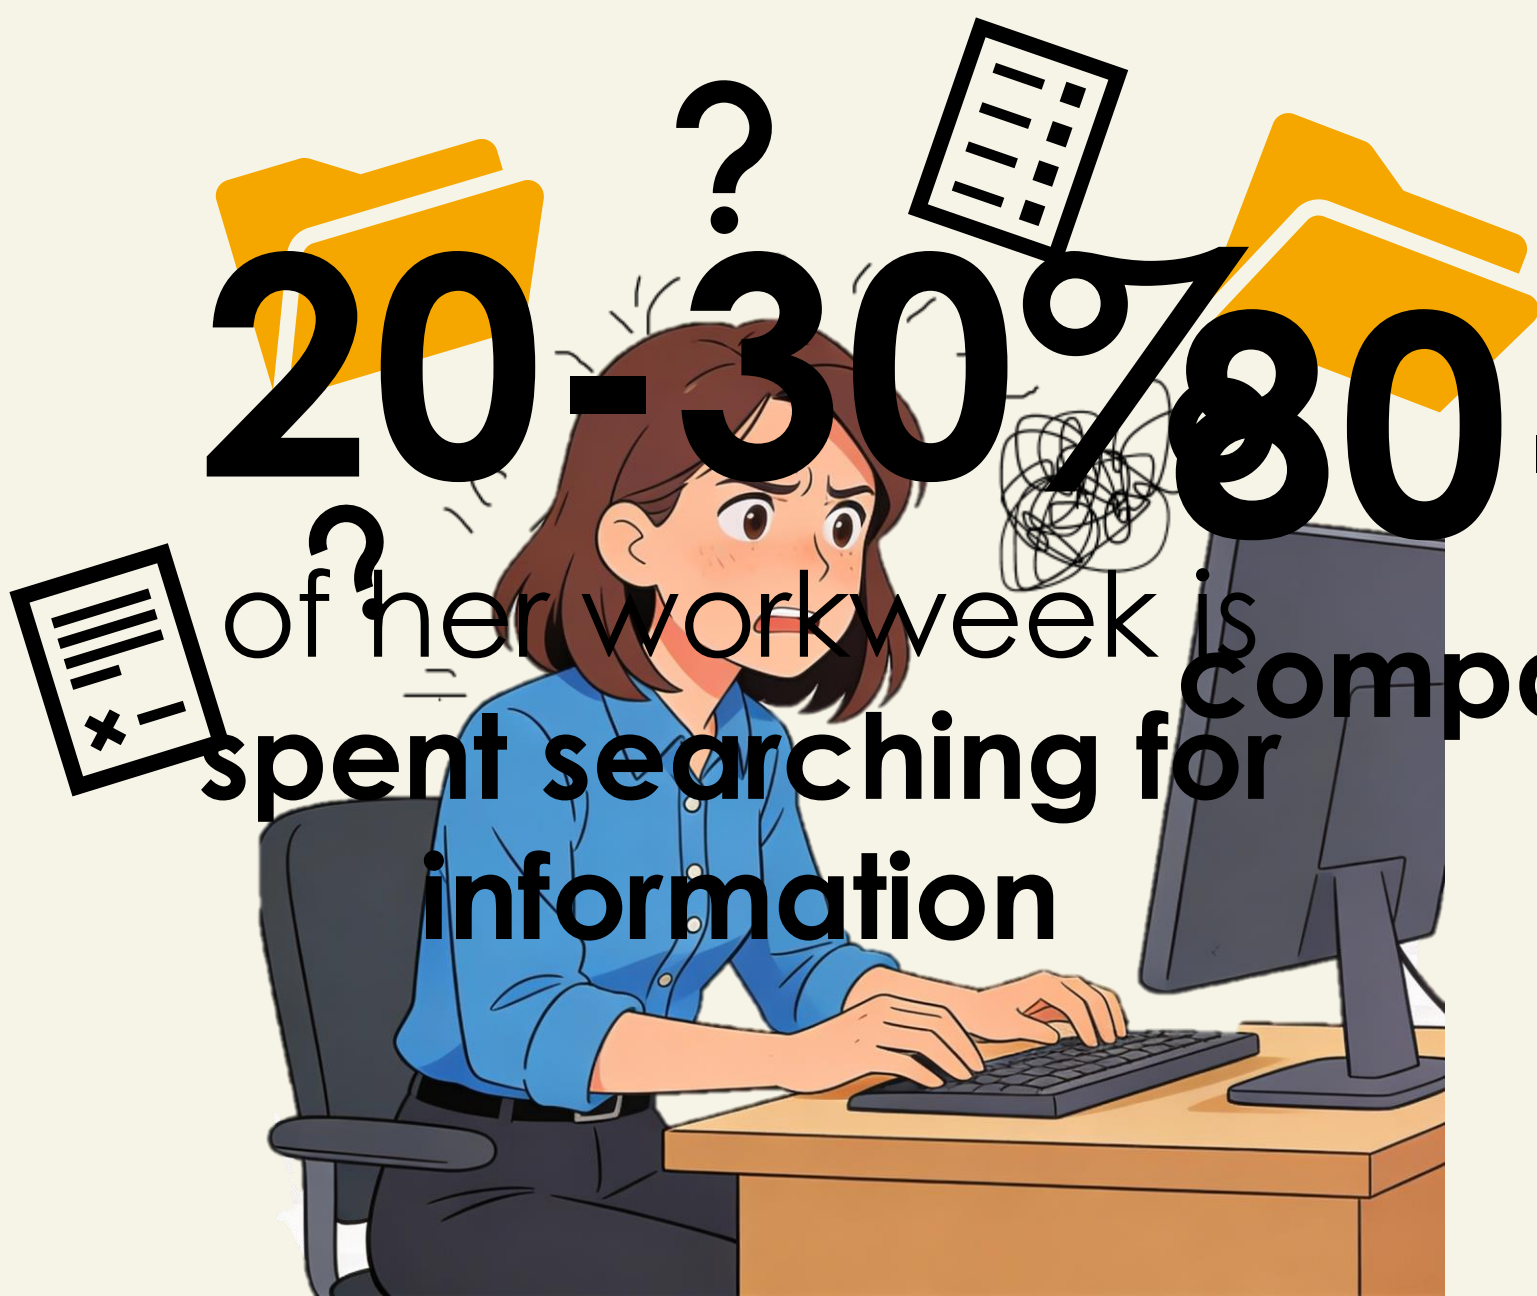

Sarah (26 years old)

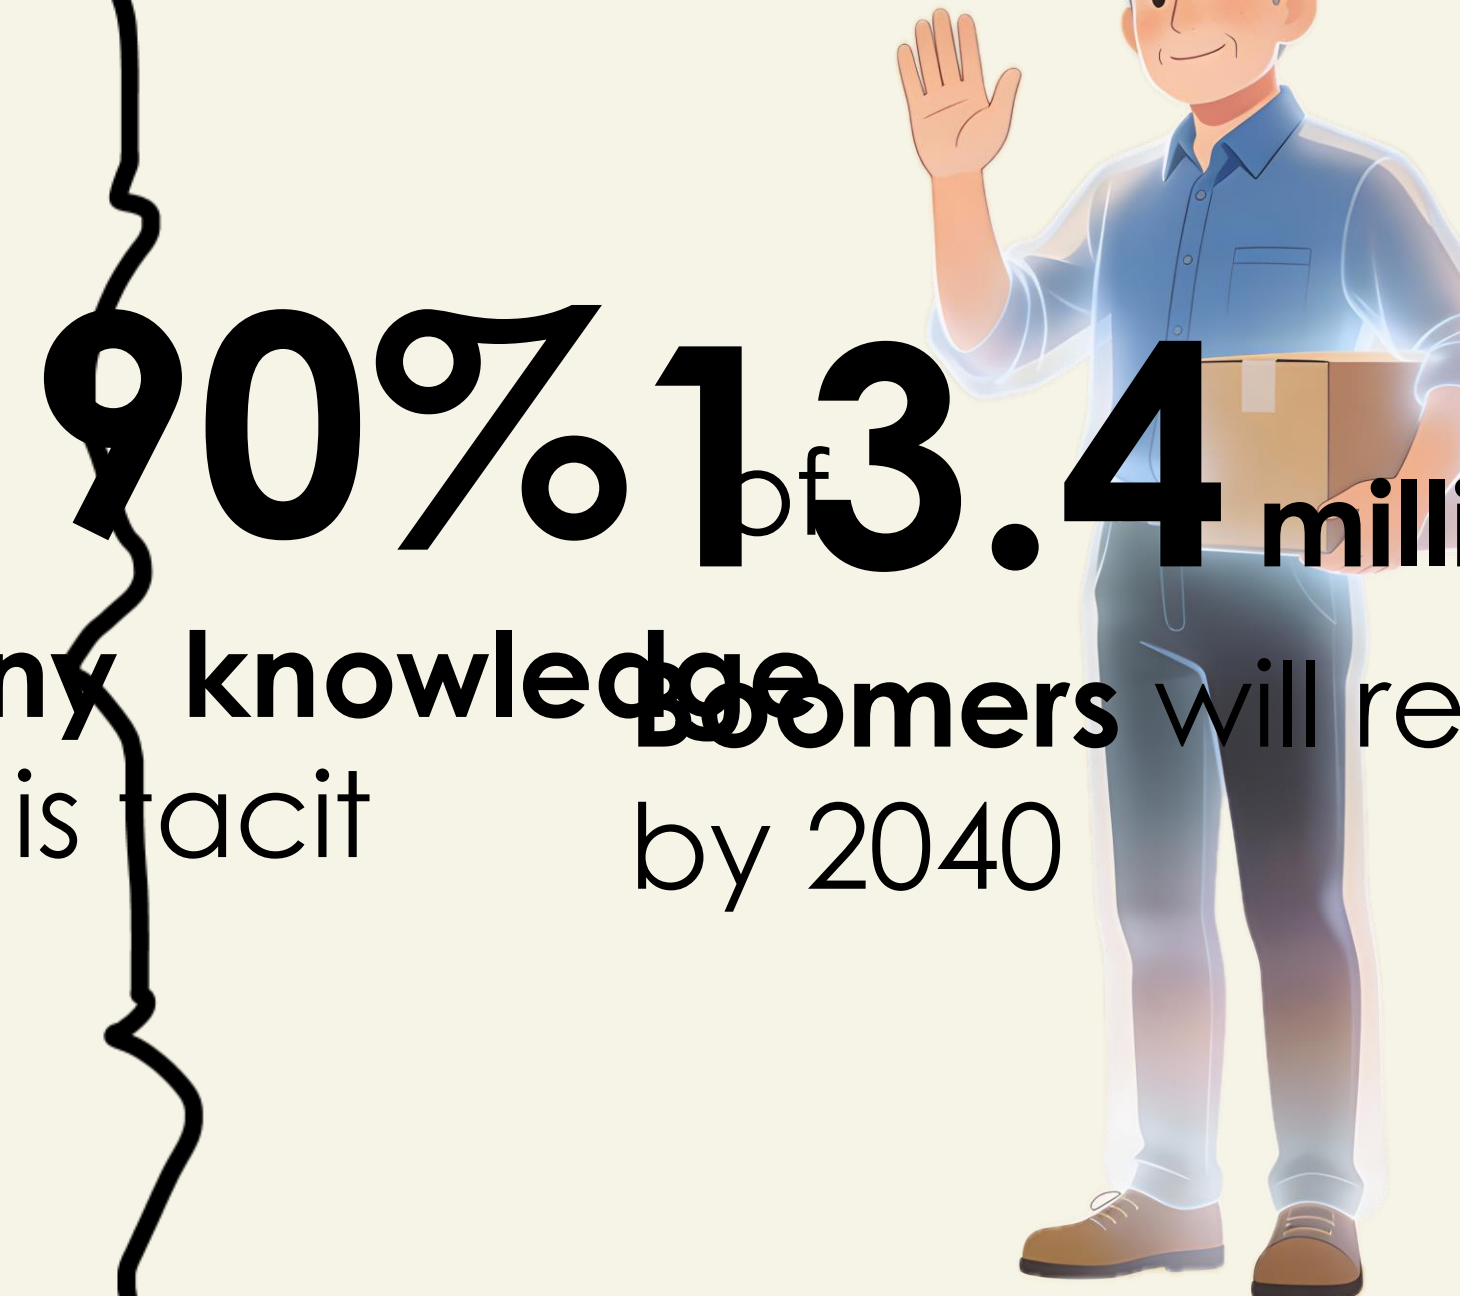

Klaus (66 years old)

THE DIVIDE

20-30%
of her workweek is
spent searching for
information

Sarah (26 years old)

80-90% of
company knowledge
is tacit
13.4 million
Boomers will retire
by 2040

Klaus (66 years old)

Our Solution Approach

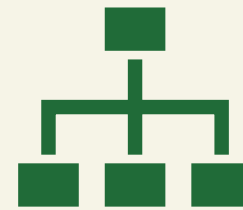

Our Solution Approach

Visualize & Support Growth

- Gamified knowledge sharing
- User-friendly interface

Structured Knowledge Pools

- Categorized data
 - Acquisition efficiency
- Prevention of loss of generational experience

AI-Powered Knowledge Guidance

- Faster answering processes
- AI improved knowledge promotion
- Combination of human and AI answers

Prototype Demo – Answering section

Knowledge tree

Based on the company documents and internal knowledge base, here are some insights that can help answer your question. The response has been generated from analyzing past discussions, best practices, and expert advice. It is not a substitute for professional advice. You can always ask for clarification or ask for more details.

AI Copilot (AI - no growth)

Based on the company documents and internal knowledge base, here are some insights that can help answer your question. This response has been generated from analyzing past discussions, best practices, and organizational documentation related to "Who actually approves the budget at Client X?". Remember, AI provides initial guidance but human expertise is needed to grow the knowledge tree!

Your Answer

Share your knowledge and help the tree grow...

 **Submit Answer & Grow Tree**

Your answer will add +1 growth to this tree
